

*Industrial equipment Ósmosis inversa Compact R.O. 4040*

**Membrane 2 units 4040**

*Industrial R.O. to 2.000 ppm*

*Production 400 L/h*

*Daily prod 9.600 L/d*

*Vertical pressure pump. 1,1kw 380V/50hz*

*Maximum conductivity of 3.125  $\mu$ S/cm*

*Prefiltration included with 5 $\mu$  sediment filter and 10" 4 units*

- Pressure gauges with glycerine.*
- Equipment actual flow measurement.*

*Electrical panel supply and safety of electrical equipment installed.*

- Working pressure 8~15 bar.*
- Conversion around 50%~75%.*

*Piping and fittings from PVC pressure,*

*Structure stainless steel*

**Dimensiones:**

**1750x1600x60 mm**
